## TECHNICAL SKILLS

**Languages:** C#, JavaScript/TypeScript, SQL (Postgres/SQL Server), NoSQL (MongoDB/CosmosDB), HTML/CSS

**Frameworks:** React, React Native, Node.js, NextJS, WPF/UWP, .NET, ASP.NET, SharePoint, Tailwind

**Skills and Tools:** Git, Docker, Azure DevOps, JIRA, SonarQube, Microsoft Azure, Visual Studio, Microservices

**Languages:** Portuguese (Native), English (Advanced)

## EXPERIENCE

### Senior Software Engineer

*Ingenious Lion / Publicis Groupe*

Oct 2024 – Present

Remote, Portugal

- Built and maintained scalable, event-driven applications using React and .NET.
- Used a wide range of Azure services, including Functions, Service Bus, App Services, and Cosmos DB.
- Developed solutions used by large enterprise clients, ensuring reliability and high performance.
- Worked closely with cross-functional teams to design new features and improve existing systems.
- Improved scalability, deployment, and monitoring processes through better tooling and automation.

### Senior Software Engineer

*Natixis / Groupe BPCE*

Jun 2021 – Oct 2024

Remote, Portugal

- Created and maintained web applications and components using SharePoint, React, and SPFx.
- Built and maintained migration applications with C# and .NET.
- Managed complete projects on SharePoint Online, from planning to deployment.
- Hosted and integrated supporting services on Azure.
- Used XL Release and Jenkins to manage and automate CI/CD pipelines.

### Software Engineer

*SiDi Samsung*

Jul 2020 – Jun 2021

Remote, Brazil

- Developed web applications using React and built APIs with C# and .NET.
- Created innovative applications and proofs of concept in computer vision and TV/laptop apps for Samsung devices.
- Built and maintained Windows applications in C#, .NET, UWP, and WPF for Samsung.

### Senior Software Engineer

*Avanade*

Jun 2018 – Nov 2019

Recife, Brazil

- Developed and maintained intranet sites using SharePoint Server and SharePoint Online with C#, JavaScript, HTML, and CSS, delivering customized solutions for enterprise clients.
- Expanded and supported cross-platform mobile applications for clients such as Azul Linhas Aéreas using Xamarin Forms, improving usability and performance.
- Created prototypes and proofs of concept for mobile applications using React Native to validate features and accelerate development decisions.
- Designed, developed, and maintained APIs with .NET and SQL Server, ensuring high availability, data integrity, and scalability.

### Software Engineer

*Joana Julião*

Apr 2016 – Jun 2018

Recife, Brazil

- Built and maintained frontend applications using React and backend services using Node.js, integrating with MongoDB for data storage.
- Integrated third-party APIs and implemented automated testing to ensure system reliability.

### Software Engineer

*Allen Informática*

Nov 2014 – Apr 2016

Recife, Brazil

- Developed and maintained intranet solutions built with SharePoint Server/Online using C#, JavaScript, HTML, and CSS
- Clients included Rede Bahia, PRODEB, and PRODAM

## EDUCATION

### Universidade de Pernambuco

*Bachelor Degree in Computer Engineering*

Recife, Brazil

Aug 2008 – Jun 2014
